LEARNING OBJECTIVES
2-4-20

DESIRRED OUTCOMES
At the end of the presentation, attendees will be able to:
• take a thorough history & physical and order appropriate imaging and labwork for the patient with painful joints or chronic widespread pain.
• make the differential diagnosis of a patient with a rheumatic disease.
• prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with rheumatic diseases and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
