

LEARNING OBJECTIVES

3-21-19

DESIRED OUTCOMES

At the end of the presentation, attendees will be able to:

- list surgical options for the patient with RA.
- evaluate the surgical indications, procedures, management approach, and complications of total joint replacement (TJR) in patients with severe RA..
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with surgical options for RA and/or cultural disparities in access, or less adherence to treatment regimens.
