

LEARNING OBJECTIVES

5-24-18

DESIRED OUTCOMES

At the end of the presentation, attendees will be able to:

- discuss current understanding of epidemiology, populations at risk, and cellular and neuroanatomical pathology of PD.
- recognize prodromal and hallmark symptoms, both motor and non-motor, conduct an appropriate work-up with imaging and diagnostic criteria.
- evaluate treatment options for patients with PD, including medication vs surgery, role of exercise and PT and potential investigational disease modifying therapies
