

LEARNING OBJECTIVES

6-12-18

Desired Outcomes: At the end of the activity, attendees will be able to:

- identify, prevent, and respond by using universal precaution against violence by applying the principles of the AVADE Healthcare Workplace Violence Prevention Training.
- recognize the characteristics of aggressive or violent patients and visitors in the healthcare environment.
- enhance safety by utilizing verbal and physical maneuvers to defuse or avoid violent and aggressive behavior.
- incorporate predicting factors and strategies to avoid physical harm by applying principles of time and distance.
